REGULATORY REVISIONS TO NSPS OOOOA
Status 5/30/19

The regulatory revisions to 2016 NSPS OOOOa are occurring in two packages:

Ex. 5 Deliberative Process (DP)

Status & Next Steps of Technical Package

- R8 sent in FAR for the proposed rule as 'concur-with-comments' on 4/18/18.

Ex. 5 Deliberative Process (DP)

- OAQPS is currently preparing Options Selection briefing material for Division Director and ultimately for Wehrum for the final rule. Current schedule:
 - FAR - June/July 2019
 - OMB Review – July 2019
 - Final Package for signature – August 30, 2019
- R8 has agreed to the following requested expediting and waivers of the ADP process during this rulemaking:
 - Down-tier SAN 5719.8 from Tier 1 to Tier 2 (R8 sent 12/11/18 recommending Tier2 rather than down to Tier 3 – this will now be a Tier 2)
 - Waive Analytic Blue Print on SAN 5719.8 (R8 sent 1/4/18)
 - Waive Early Guidance on SAN 5719.8 (R8 sent 1/24/18)
 - Waive Analytic Blueprint as the technical package goes final (R8 sent 5/13/19)

Ex. 5 Deliberative Process (DP)

- On 5/30/19 OAQPS began routing the proposed rule through OAR – then to OP (typically ~2 weeks) – then to OMB.
- R8 has agreed to the following requested expediting and waivers of the ADP process during this rulemaking:
 - Waive Analytic Blue Print on SAN 6616 (R8 sent 1/29/18)
 - Expedite FAR on proposed SAN 6616 (R8 sent 5/7/18)

Other

- CTGs (Control Techniques Guidelines)
 - On 3/1/18 the EPA signed a notice seeking public comment on withdrawing the 2016 Control Techniques Guidelines for the Oil and Natural Gas Industry (Oil and Gas CTG).

Ex. 5 Deliberative Process (DP)

- The comment period on the proposed CTG withdrawal closed 4/23/18 - EPA received over 90,000 comments.
- The CTG supplemental proposal will follow the NSPS OOOOa SAN 6616 policy proposal to OMB (~Aug-Sep 2019).
- The CTGs are a separate rulemaking from NSPS OOOOa and it does not have an inter-office technical workgroup.
